TERMS OF ADMISSION.

Candidates for admission to the Freshman Class are examined in the following books,—

Cicero's Select Orations.
The whole of Virgil.
Sallust.
Andrews and Stoddard's or Zumpt's Latin Grammar.
Latin Prosody.
Arnold's Latin Prose Composition, to the Passive voice, (first XII Chapters).

Jacobs', Colton's or Felton's Greek Reader.
Xenophon's Anabasis, first three books.
Sophocles', Crosby's or Kühner's Greek Grammar.

Thomson's Higher Arithmetic.
Day's Algebra, to Quadratic Equations.
English Grammar.
Geography.

TIME AND CONDITIONS OF EXAMINATION.

The regular examination for admission to College takes place on Monday and Tuesday preceding the public Commencement, beginning at 9 o'clock A. M. on Monday, and at 8 o'clock A. M. on Tuesday. The candidates assemble at Alumni Hall. There

will be another examination at the same place, on Tuesday and Wednesday, Sept. 11th and 12th, beginning at 9 o'clock A. M. on Tuesday, and at 8 o'clock A. M. on Wednesday. Persons may be examined for an advanced standing in any other part of the collegiate terms, but not in vacations, except in very special cases. No one can be admitted to the Senior Class, after the commencement of the second term.

ADVANCED STANDING.—All candidates for advanced standing, whether from other Colleges or not, in addition to the preparatory studies, are examined in those previously pursued by the classes which they propose to enter.

AGE.—No one can be admitted to the Freshman Class, till he has completed his fourteenth year, nor to an advanced standing without a proportional increase of age.

TESTIMONIALS.—Testimonials of good moral character are in all cases required; and those who are admitted from other Colleges must produce certificates of dismission in good standing.

BOND.—Every person, on being admitted, must also give to the Treasurer a bond, executed by his parent or guardian, for two hundred dollars to pay all charges which may arise under the laws of the College.

MATRICULATION.—The students are not considered as regular members of the College, till, after a residence of at least six months, they have been admitted to matriculation, on satisfactory evidence of an unblemished moral character. Before this they are only students on probation. The laws of the College provide for the final separation from the institution of those, who, within a specified time, do not so far approve themselves to the Faculty as to be admitted to matriculation.

COURSE OF INSTRUCTION.

THE FACULTY, to whom are committed the government and instruction of the undergraduate students, consists of a President; a Professor of Natural Philosophy and Astronomy; a Professor of Rhetoric and English Literature; a Professor of Mathematics; a Professor of Moral Philosophy and Metaphysics; a Professor

of Natural History; a Professor of the Latin Language and Literature; a Professor of the Greek Language and Literature; a Professor of Divinity; and seven Tutors.

The whole course of instruction occupies four years. In each year there are three terms or sessions.

The three younger classes are divided each into three parts; the Senior Class into two parts. Each of the four classes attends three recitations or lectures in a day; except on Wednesdays and Saturdays, when they have only two. The following scheme gives a general view of the studies pursued in each term:—

FRESHMAN CLASS.

FIRST TERM.

Greek.—Homer's Iliad, two books.
Latin.—Lincoln's Livy; Arnold's Latin Prose Composition.
Mathematics.—Day's Algebra, to the Binomial Theorem.

SECOND TERM.

Greek.—Homer's Iliad, continued through four books; Herodotus; Arnold's Greek Prose Composition.
Latin.—Lincoln's Livy; Latin Prose Composition.
Mathematics.—Playfair's Euclid, six books.
History.—Pütz and Arnold's Ancient History.

THIRD TERM.

Greek.—Herodotus; Greek Testament; Greek Prose Composition.
Latin.—The Odes of Horace (Lincoln's edition); Latin Prose Composition.
Mathematics.—Playfair's Euclid, finished; Stanley's Spherical Geometry.
Rhetoric.—Lectures on the Structure of Language. Compositions.

SOPHOMORE CLASS.

FIRST TERM.

Greek.—Xenophon's Memorabilia; Alcestis of Euripides; Greek Composition.
Latin.—The Satires and Epistles of Horace; Latin Composition.
Mathematics.—Day's Algebra, finished; Day's Mathematics:—Nature and use of Logarithms, Plane Trigonometry.
Rhetoric.—Declamations. Compositions.

SECOND TERM.

Greek.—Prometheus of Æschylus; Panegyricus of Isocrates.
Latin.—Cicero de Amicitia and de Senectute; Cicero de Officiis; Latin Composition.
Mathematics.—Day's Mathematics:—Mensuration of Superficies and Solids, Isoperimetry, Mensuration of Heights and Distances; Stanley's Spherical Trigonometry.
Rhetoric.—Declamations. Compositions.

THIRD TERM.

Greek.—Antigone of Sophocles.

Mathematics.—Day's Mathematics:—Navigation, Surveying; Bridge's Conic Sections; Analytical Geometry, (see Elective Studies, (p. 38).

Rhetoric.—Whately's Rhetoric, (with the exception of Part IV, on Elocution). Declamations. Compositions.

JUNIOR CLASS.

FIRST TERM.

Greek.—Gorgias of Plato.

Latin.—Cicero de Officiis; Exercises in writing Latin.

Mathematics.—Church's Differential Calculus, (see Elective Studies, (p. 38).

Natural Philosophy.—Olmsted's Natural Philosophy:—Mechanics. Lectures.

Rhetoric.—Forensic Disputations.

SECOND TERM.

Greek.—Thucydides.

Latin.—Tacitus.

Mathematics.—Church's Integral Calculus, (see Elective Studies, (p. 38).

Natural Philosophy.—Olmsted's Natural Philosophy:—Hydrostatics, Hydraulics, Pneumatics, Acoustics, Electricity, Magnetism. Lectures.

Rhetoric.—Forensic Disputations.

THIRD TERM.

Greek.—Thucydides.

Natural Philosophy.—Olmsted's Natural Philosophy:—Optics. Lectures.

Astronomy.—Olmsted's Astronomy, to the Planets.

Logic.—Whately's Logic.

Elective Studies.
- Select Greek.
- Select Latin.
- Hebrew.
- Modern Languages.
- Practical Surveying.

SENIOR CLASS.

FIRST TERM.

Astronomy.—Olmsted's Astronomy, finished.

History.—Guizot's History of Civilization. Lectures.

Mental Philosophy.—Reid's Essays (Walker's edition); Upham's Mental Philosophy. Lectures.

Rhetoric.—Oration of Demosthenes on the Crown. Lectures on Eloquence. Compositions. Forensic Disputations.

Chemistry.—Silliman's Chemistry. Lectures, with daily examinations.

SECOND TERM.

Moral Philosophy.—Stewart's Active and Moral Powers; Whewell's Elements of Morality. Lectures.

Political Philosophy.—Wayland's Political Economy; Law of Nations. Lectures.

Theology.—Paley's Natural Theology. Butler's Analogy.

Rhetoric.—Blair's Rhetoric. Lectures on Taste. Compositions. Forensic Disputations.

Meteorology.—Lectures.

Astronomy.—Lectures.

Anatomy.—Lectures.

Mineralogy.—Lectures.

THIRD TERM.

Political Philosophy.—Kent's Commentaries, Vol. I. Lectures on the Constitution of the United States.

Theology.—Paley's Evidences of Christianity.

Geology.—Lectures.

LECTURES TO UNDERGRADUATES.

FIRST TERM.

SENIOR CLASS.

Chemistry—Professor SILLIMAN, Junior, daily, at 12 o'clock, at the Chemical Laboratory.

History—The PRESIDENT, Monday, at 10 o'clock, at No. 131 Lyceum.

Demosthenes on the Crown—Professor LARNED, Monday, at 4½ o'clock, at No. 131 Lyceum.

Mental Philosophy—Professor NOAH PORTER, Thursday, at 10 o'clock, at No. 131 Lyceum.

Eloquence—Professor GOODRICH, Thursday, at 4½ o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Natural Philosophy—Professor OLMSTED, Tuesday and Friday, at 3 o'clock, at the Philosophical Chamber, Cabinet Hall, beginning about the 1st of November.

SECOND TERM.

SENIOR CLASS.

Meteorology and Astronomy—Professor OLMSTED, daily, for seven weeks, at 9 o'clock, at the Philosophical Chamber, Cabinet Hall.

Anatomy—Professor KNIGHT, daily, for three weeks, from March 1st, at 9 o'clock, at the Medical College.

Mineralogy—Professor SILLIMAN, Senior, daily, during the last four weeks of the term, at 9 o'clock, at the Geological Chamber, Cabinet Hall.

Political Economy—The PRESIDENT, Monday and Thursday, at 11 o'clock, at No. 131 Lyceum.

Moral Philosophy—Professor NOAH PORTER, Tuesday and Friday, at 11 o'clock, at No. 131 Lyceum.

JUNIOR CLASS.

Natural Philosophy—Professor OLMSTED, Tuesday and Friday, after March 1st, at 4½ o'clock, at the Philosophical Chamber, Cabinet Hall.

THIRD TERM.

SENIOR CLASS.

Geology—Professor SILLIMAN, Senior, daily, at 8 o'clock, at the Geological Chamber Cabinet Hall.

Constitution of the United States—Professor BISSELL, daily, at 11 o'clock, at No 131 Lyceum.

JUNIOR CLASS.

Optics—Professor OLMSTED, twice a week, at 3 o'clock, at the Philosophical Chamber, Athenæum.

EXERCISES IN DECLAMATION AND COMPOSITION.

The Senior and Junior Classes have exercises in forensic disputation twice a week.

The Senior Class have exercises in English composition twice a week.

The Sophomore Class, during the whole year, and the Freshman Class, during the third term, have exercises in English composition once a week.

The Sophomore Class have frequent exercises in Elocution, and once a week have an exercise in Declamation in the Chapel, before the Professor of Rhetoric and the members of the Class.

ELECTIVE STUDIES.

Those students, who are desirous of pursuing the higher branches of the Mathematics, are allowed to choose Analytical Geometry in place of the regular Mathematics, in the third term of Sophomore Year, and the Differential and Integral Calculus, during the first two terms of Junior Year, in place of the Greek or the Latin studies of those terms.

During the third term of Junior Year, in addition to the required studies of the term, the members of the class are allowed to receive instruction in some select Greek or Latin; Hebrew; the Modern Languages; or Practical Surveying.

Students who desire instruction in the modern languages, may receive it, at their own expense, from competent teachers, engaged for the purpose by the Faculty.

EXAMINATIONS.

Public examinations of the classes are held at the close of each term on the studies of the term; and twice in the College course, at the close of the Sophomore and Senior years, on the studies of the two preceding years. The Biennial Examinations are conducted wholly in writing and are continued each for a period of between two and three weeks.

TERMS AND VACATIONS.

The public commencement is held on the last Thursday in July of each year. The first term begins seven weeks from the day before Commencement and continues fourteen weeks; the second begins on the first Wednesday in January and continues fourteen weeks; the third, of twelve weeks, begins on the first Wednesday in May and continues till Commencement. The intervening periods of seven, two, and three, or as the case may be, four weeks, are assigned for vacations.

Leave of absence.—No student is allowed to be absent, without special leave, except in vacations. The absence of a student in term time, even for a few days, occasions a much greater injury than is commonly supposed by parents or guardians. During the vacations, on the contrary, parents are earnestly advised not to allow their sons to remain at the College.

PUBLIC WORSHIP.

Prayers are attended in the College Chapel every morning and evening, with the reading of the Scriptures; when one of the Faculty officiates, and all the students are required to be present.

Public worship is held in the Chapel on the Sabbath, which all the students are required to attend, except such as have special permission to attend the worship of other denominations, to which their parents belong. Such permission can be obtained only by presenting to the President a written request from the parent or guardian.

EXPENSES.

The College bills are made out by the Treasurer three times a year, at the close of each term; and are delivered to the students, who are required to present them to their parents, guardians, or patrons. The bills are payable at the close of the term,

and if not paid by the expiration of two weeks after the commencement of the succeeding term, the student is liable to be prohibited from reciting.

The annual charges in the Treasurer's bill are,

For tuition, - - - - - -	$39 00
For rent of half chamber in College, 7½ to 16½ dollars—average, - - - -	12 00
For ordinary repairs and contingencies, -	2 40
For general damages, sweeping, &c. about	3 60
For expenses of public rooms, - - -	3 00
	$60 00

Besides this, the student pays for damages done by himself, for tuition in optional studies during part of Junior year, and a few additional charges on graduating.

If a student occupies a whole room the charge for rent is double that stated above.

Any person admitted to an advanced standing, unless coming from another College, pays to the Treasurer, the sum of five dollars as tuition money, for each term which has been completed by the class which he enters.

Notes of the several incorporated banks in this State, and such other notes as are taken by the banks in the city of New Haven, are received in payment of the bills. Drafts on Boston, New York or Philadelphia, may be transmitted direct to the Treasurer.

Board is obtained at prices varying from $2 00 to $3 00. To a majority of the students it is about $2 75 a week. Cheap board may be obtained in clubs, by those students who wish board at a lower rate than is common in boarding houses.

Students who wish to take lodgings in town are permitted to do so. But if, in consequence of this, any of the rooms in College are left vacant, the amount of the rent will be charged upon those who room in town. The expense of room rent in private houses is much greater than in College.

The students provide for themselves bed and bedding, furniture for their rooms, fuel, lights, books, stationery and washing. There are also, in the several classes and literary societies, taxes

of a small amount. If books and furniture are sold, when the student has no further necessity for them, the expenses incurred by their use will not be great.

The following may be considered as a near estimate of the *necessary* expenses, without including apparel, pocket money, traveling, and board in vacations:—

Treasurer's bill as above, - -		$60	$60
Board, 40 weeks, - - - -	from	80 to	120
Fuel and lights, - - - -	"	6 "	15
Use of books recited, and stationery,	"	5 "	15
Use of furniture, bed and bedding,	"	5 "	15
Washing, - - - - - -	"	12 "	18
Taxes in the Societies, &c. - -	"	6 "	8
Total,		$174 to	$251

Fuel is distributed to those students who apply for it, at cost and charges, and *must be paid for at the time of ordering.*

With regard to apparel, and what is called pocket money, no general estimate can be made. These are the articles in which the expenses of individuals differ most; and in which some are unwarrantably extravagant. There is nothing by which the character and scholarship of the students in this College are more endangered, than by a free indulgence in the use of money. Great caution with regard to this is requisite on the part of parents. What is more than sufficient to defray the ordinary expenses, will expose the student to numerous temptations; and will not contribute either to his respectability or happiness.

As a precaution against extravagance, parents at a distance frequently deposit funds with some one of the Faculty; who, in that case, pays a particular attention to the pecuniary concerns of the student, settles his bills, corresponds with the parent, transmits an account of the expenditures, &c., for which he charges a commission.

BENEFICIARY FUNDS.

A sum somewhat exceeding two thousand dollars, derived chiefly from permanent charitable funds, is annually applied by

the Corporation for the relief of indigent students, who, to the number of about one hundred, have their tuition either wholly or in part remitted.

Means are provided for discharging the tuition ($13 per term) of those students who are preparing for the ministry of the Gospel.

Indigent students are also supplied with most of the text-books used in the College course, without expense, from the Benevolent and Education Libraries.

Students in the Freshman Class who occupy the recitation rooms, save their room rent and fuel in winter, and receive a small compensation in summer.

SCHOLARSHIPS.

The Berkeley Scholarship, yielding about forty-six dollars a year, is awarded to the student in each Senior Class, who passes the best examination in the Greek Testament, Xenophon's Cyropædia, and Homer's Iliad, Cicero's Tusculan Questions, Tacitus, (except the Annals,) and Horace; provided he remains in New Haven as a graduate one, two or three years.

The Clark Scholarship, yielding a hundred and twenty dollars a year, is awarded to the student in each Senior Class, who passes the best examination on the studies of the College course; provided he remains in New Haven as a graduate one or two years, pursuing a course of study (not professional) under the direction of the Faculty.

The Bristed Scholarship, yielding about eighty dollars a year, is awarded to the student in the Sophomore or Junior Class, whenever there may be a vacancy, who passes the best examination in the Greek and Latin classics and the mathematics. The successful candidate receives the annuity, (forfeiting one-third in case of non-residence in New Haven,) until he would regularly take his second degree.

A Scholarship, yielding sixty dollars a year, is awarded to the student in each Freshman Class, who passes the best examination in Latin composition (excellence in which is essential to suc-

cess), in the Greek of the year, and in the solution of algebraic problems. The successful candidate enjoys the annuity under certain conditions during the four years of his College course.

PREMIUMS.

The DeForest Prize Medal, of the value of one hundred dollars, will be awarded "to that scholar of the Senior Class, who shall write and pronounce an English Oration in the best manner."

The Townsend Premiums, five in number, each of twelve dollars, are awarded in the Senior Class for the best specimens of English composition.

The Berkeley Premiums for Latin composition are offered to the Junior, Sophomore, and Freshman Classes near the beginning of the third term.

The Clark Premiums will be offered, during the present year, for the best examination in the Latin of the second term of Junior year; for excellence in the department of the higher Mathematics of Junior year; and for the solution of problems in Practical Astronomy.

The College Premiums are also given in the Sophomore Class for English composition, at the end of the first and second terms, in the Sophomore Class for Declamation, and in the Sophomore and Freshman Classes for the solution of mathematical problems.

DEGREES.

The Degree of Bachelor of Arts is conferred on those persons who have attended and fulfilled the course of academical exercises, as appointed by law, for the space of four years, and have been approved on examination at the end of the course as candidates for the same. But no person can receive this degree, unless he shall have paid his dues to the Treasurer as early as the Monday before the Commencement.

Every Bachelor of Arts of three years' or longer standing may receive the Degree of Master of Arts on the payment of a fee of five dollars, provided he shall, in the interval, have sustained a good moral character. Application must be made to the President previous to the Commencement.

Theological Department.

THE INSTRUCTORS in this Department are a Professor of Didactic Theology, a Professor of Sacred Literature, a Professor of the Pastoral Charge, and the Professor of Divinity.

The TIME OF ADMISSION is at the beginning of the collegiate year. It is desirable that those who join this Department should be present at the commencement of the first term. Those admitted to an advanced standing will be expected to have previously gone over the studies pursued by their respective classes.

The CONDITIONS for entrance are hopeful piety, and a liberal education at some College, or such other literary acquisition as may be considered an equivalent preparation for theological studies.

The TERMS AND VACATIONS are the same with those in the College.

The REGULAR COURSE OF INSTRUCTION occupies three years, and comprises the following subjects:

JUNIOR CLASS.

Hebrew Grammar, (Roediger's Gesenius, translated by Conant).
Conant's Hebrew Exercises and Chrestomathy.
Principles of Sacred Criticism and Hermeneutics.
Critical and Exegetical study of the Hebrew and Greek Scriptures.
Critical and Exegetical Dissertations.
LECTURES by the Professor of Sacred Literature on some topics in Introduction to Theology, and in Exegetical Theology.
LECTURES by the Professor of Didactic Theology on Mental Philosophy including the Will

MIDDLE CLASS.

LECTURES by the Professor of Didactic Theology—
On Moral Philosophy.
Moral Government.
Natural Theology.
Necessity and Evidences of Revelation.
Systematic Theology.
Exegetical study of the Scriptures and Dissertations continued.

SENIOR CLASS.

LECTURES on the Structure and Composition of Sermons and on Public Prayer.
Criticism of Skeletons and of Sermons.
Exercises in Extemporaneous Speaking and Preaching before the Class.
LECTURES on the Pastoral Charge.
Revivals of Religion.
History of Modern Missions.
Expository Preaching.
Elocution, attended by Practice in the Delivery of Sermons.

There are weekly Debates in the Rhetorical Society, at which the Professor of Didactic Theology presides, and in which the members of all the Classes participate.

The students have access to the Theological Library, to the College Library, and to the libraries of the several literary Societies in the College.

A building has been erected for the accommodation of students in which the rooms are free of rent; but each occupant is subject to a charge of $3,50 a year for incidental expenses. No other charges are made to the students.

In addition to the aid afforded by the American Education Society, provision is now made for efficient assistance to those who need it. Such persons also have an opportunity of attending, free of expense, the Lectures of Professor SILLIMAN, Professor OLMSTED and others, on Natural Science; and those preparing for missionary service, also on the Lectures in the Medical Department.

Law Department.

THIS Department is under the direction of a FACULTY, consisting of the President of the College, and two Law Professors, Hon. CLARK BISSELL, LL. D., late Judge of the Supreme Court of the State; and Hon. HENRY DUTTON, LL. D., Governor of the State.

THE COURSE OF STUDY occupies two years. The Summer and Spring vacations in this Department coincide with those in the Academical Department. There is also a recess of about two weeks near the first of January in each year.

The School is divided into three reading classes. Each class is daily employed upon a lesson in the Class Book, and is separately examined, and every student can read in one or more of

the three classes, as he finds himself able and inclined to perform the requisite labor.

The students are required to peruse the most important elementary treatises, and are daily examined on the author they are reading, and receive at the same time explanations and illustrations of the subjects they are studying.

The following are some of the principal studies of the course: Blackstone's Commentaries; Real Estate; Personal Property; Contracts; Domestic Relations; Parties to Actions; Forms of Actions; Pleading; Evidence; Nisi Prius; Bills of Exchange and Promissory Notes; Insurance; Shipping; Corporations; Criminal Law; Equity; Constitution of the United States; Law of Nations; Conflict of Laws.

Courses of lectures are delivered by the Instructors, on all the titles and subjects of Common and Statute Law, and of Equity.

Three exercises, consisting of Lectures or Examinations of one hour each, are daily given by the Instructors, and at all of them each of the pupils is permitted to attend.

A moot court is held once a week or oftener, which employs the students in drawing pleadings, and investigating and arguing questions of law.

The students are called upon, from time to time, to draw declarations, pleadings, contracts, and other instruments connected with the practice of law, and to do the most important duties of an attorney's clerk.

They are occasionally required to write disquisitions on some topic of law, and collect the authorities to support their opinions.

The more advanced students are assisted in the study of the laws of the particular States in which they intend to establish themselves.

The students are furnished with the use of the elementary books, and have access, at all times, to the College libraries, and to a law library, comprising every important work, both ancient and modern. The law library contains the Revised Statutes, the Reports and the Digests of all the States in the Union.

The terms for tuition, with constant use of text-books, and ordinary use of the library, are as follows, payable in advance,

unless for satisfactory reasons. For the whole course of two years, one hundred and fifty dollars. For one year, eighty dollars. For less than one year, ten dollars a month. For more than one year and less than two years, seven dollars a month after the first year.

The Degree of Bachelor of Laws will be conferred by the President and Fellows, on liberally educated students who have been members of the Department eighteen months, and have complied with the regulations of the Institution, and passed a satisfactory examination. Those not liberally educated, will be graduated upon similar conditions, after two years' membership; and members of the Bar, after one year's membership subsequent to their admission to the Bar.

Medical Department.

The Instructors in the Medical Department are a Professor of Chemistry and Pharmacy, a Professor of the Theory and Practice of Physic, a Professor of Surgery, a Professor of Obstetrics, a Professor of Anatomy and Physiology, and a Professor of Materia Medica and Therapeutics.

The annual course of lectures commences on Thursday, seven weeks after the College Commencement, (Sept. 13th, 1855,) and continues four months. The lectures are so arranged, that at least five are given daily, and a part of the time six.

A Medical and Surgical Clinique is held every week, at the Connecticut Hospital, during the lecture term, at which a variety of cases is presented, for consultation and operations, in presence of the class.

The fees, which are required in advance, are $12,50 for each course, except that on Obstetrics, which is $6, with a Matriculation fee of $5—the whole amounting to $73,50. The tickets of all the Professors, or a part, may be taken in any one season. Those who have attended two full courses of Lectures in this Institution, are entitled to admission to future courses gratis. Those who have attended one full course in this Institution, and also one full course in another incorporated Medical Institution, will be admitted to a full course on paying the Matriculation fee.

The students are entitled to gratuitous admission to the course of Lectures on Anatomy and Physiology, given by Professor KNIGHT, during the spring term, to the Senior Class in the Academical Department, and to the courses by Professor SILLIMAN, on Mineralogy, during the spring, and on Geology, during the summer. They also have admission to the various other Lectures in the Academical Department, on paying the fees of the several courses.

The Medical College building is spacious and commodious. The Anatomical Museum, already one of the most valuable in the country, has recently received important additions, at an expenditure of nearly $1,500; *and there will hereafter be an annual income of about* $1,000 *to be applied to similar purposes.* The arrangements for Dissections are ample, and subjects are supplied on the most reasonable terms. The Anatomical rooms, the Cabinet of the Materia Medica, the Museum of the Yale Natural History Society, the Cabinet of Minerals, and the Libraries of the Medical and Academical Departments, are all open to students.

By the Statutes of the State, the requirements for the DEGREE of Doctor in Medicine are three years' study for those who are not Bachelors of Arts, and two years' for those who are; attendance upon two full courses of Lectures, either in this Institution, or some other of a similar character; the attainment of twenty one years of age, and a good moral character; together with a satisfactory examination before the Board of Examiners for the State, at which the candidate must present a dissertation upon some subject connected with the Medical Sciences, written in a form prescribed by the Faculty. This Board consists of the Medical Professors of the College, *ex officiis*, and an equal number of persons chosen by the Fellows of the Medical Society of the State. Licenses to practice are granted by the President of the Society, upon the recommendation of the Board of Examiners, and candidates for a license must possess the same qualifications as those for a degree, except that attendance upon one course of Lectures only is required. The graduation fee is $15 —fee for a license, including diploma, $4,50. The examination is held immediately after the close of the Lectures, when the licenses are granted and the degrees conferred.

Department of Philosophy and the Arts.

THE DESIGN of this Department is to furnish resident graduates and others, with the opportunity of devoting themselves to special branches of study, either not otherwise provided for, or not pursued as far as individual students may desire. The branches intended to be embraced in this department are such in general as are not included under Theology, Law and Medicine; or more particularly, Mathematical Science, Physical Science and its application to the Arts, Metaphysics, Philology, Literature and History. Instruction in this department may be given by professors not belonging to the other departments, by the Academical professors, and by such others as the President and Fellows may approve. The Instructors for the year, with the President, compose the Faculty of the department. It is necessary for all students in philology and mathematical science, that they be thoroughly grounded in those studies.

For the TERMS OF ENTRANCE upon the several courses in the department, application may be made to the several instructors.

Professor SILLIMAN'S lectures on Mineralogy and Geology will be open to the students of this department.

Professor GIBBS proposes to give lectures on some points of general Philology.

Professor OLMSTED'S lectures on Natural Philosophy and Astronomy will be open to the students of this department. He will also, if desired, give private instruction in Experimental Philosophy, and Astronomical Calculations.

Professor NOAH PORTER will instruct in Psychology, Logic and the History of Philosophy.

Professor NORTON will instruct in Civil and Mechanical Engineering.

Professor THACHER will instruct twice a week in Lucretius and in Latin Composition.

Professor SILLIMAN, Jr.'s lectures on Chemistry before the Academical students will be open to the students of this department.

Professor HADLEY will instruct twice a week in Pindar or Theocritus.

Professor JOHN A. PORTER will instruct in the applications of science to Agriculture and in Analytical Chemistry.

Professor WHITNEY will give instruction in Sanskrit from Bopp's Grammar and Nalus, or such other text-books as may be agreed upon, and in the rudiments of the Ancient and Modern Persian, and of the Egyptian languages.

YALE SCIENTIFIC SCHOOL.

THIS SCHOOL, which is embraced within the Department of Philosophy and the Arts, is under the immediate supervision of Professors WILLIAM A. NORTON, BENJAMIN SILLIMAN, Jr., and JOHN A. PORTER, and includes courses of instruction in Applied Chemistry and in Engineering.

APPLIED CHEMISTRY.

ACCORDING to the method pursued in this department, each student engages in a systematic course of experiment, in which he is superintended by the instructors. The course includes among other applications, the analysis of grains, soils, and minerals, the determination of the commercial value of drugs and chemicals, and experiments in Medical Chemistry.

THE TEXT-BOOKS used will be Dana's Mineralogy, Silliman's Chemistry, Fresenius's Analysis, Will's Outlines, Rose's Chemical Analysis.

A COURSE OF LECTURES on Agricultural Chemistry by Professor JOHN A. PORTER will commence January 8th and continue two months and a half, at the rate of three lectures in each week. A special course in Analysis will accompany these lectures.

Professor SILLIMAN, Jr. will give instruction in Chemical Mineralogy to such persons as may desire it.

THE ANALYTICAL LABORATORY is open to the class during the whole day at a charge of from $60 to $70 per term of twelve to fourteen weeks. This includes the expense of materials consumed and the use of apparatus. The charge is diminished in the case of students who are connected with the school for a period less than a full term, or spend only a portion of each day

in the Laboratory. The fee required of the students in this school for the lectures on Agricultural Chemistry is $10; in the case of those connected with other departments of the College it is $5. There is also a Matriculation fee of $5. Previous study of Chemistry is not essential to admission.

A Mineralogical Cabinet is deposited in the Laboratory for the use of students in this department; they will also have access to the College mineralogical and geological cabinets and to the libraries.

The lectures on Chemistry in the Academical department, commence the first week of the first term, and continue through the term. The lectures on Mineralogy are delivered during the second term, and those on Geology commence the first week of the third term, and continue six weeks. Students in Mineralogy may also have the benefit of consultation with Professor Dana. The experimental lectures of Professor Olmsted, on Natural Philosophy, commence about the first of November, and continue nearly at the rate of two a week, through the year. His lectures on Meteorology and Astronomy commence at the beginning of the second term, and continue, daily, for about seven weeks.

ENGINEERING.

The Course of Instruction embraces the following studies and exercises.

Surveying, in all its branches, with the adjustment and use of instruments, and operations in the field.

Drawing—topographical, geometrical, mechanical, architectural; with shading and tinting.

Descriptive Geometry—Shades and Shadows—Linear Perspective—Isometrical Projection; pursued in connection with systematic exercises in geometrical drawing.

Applications of Descriptive Geometry to Masonry and Stone-cutting, in the construction of Arches, &c., and to Civil and Mechanical Engineering, generally.

The Principles of Architecture.

Analytical Geometry, and Differential and Integral Calculus.

Mechanics, including Hydraulics and Pneumatics;—Application of Mechanics to Machinery and Engineering.

The Science of Construction in its various departments; with a discussion of the nature, strength, and mode of preparation of building materials.

Engineering field-work; or the location of roads, surveys for excavations and embankments, &c. Use of astronomical instruments for the determination of time, latitude and longitude, &c.

This course will occupy two years. Students will be admitted to pursue a full or a partial course, at their option.

The preparatory mathematical studies required for admission to the full course, are Arithmetic, Algebra, Geometry, and Trigonometry.

The terms, or sessions, coincide with those in the Academical Department.

The tuition fee for the full course, for each term, is $30, to be paid in advance. The fee for the course of Surveying alone is $12. The Matriculation fee is $5. There is no charge for incidental expenses.

Students in this School have free access to the College Library, and to the mineralogical and geological cabinets.

Professor Silliman, Jr. will give, during the second term, a short course of lectures to the students of this school, on the chemistry of Materials used in Construction.

The lectures of Professor Silliman, Senior, on Mineralogy and Geology, those of Professor Olmsted, on Natural Philosophy, Astronomy, and Meteorology, and those of Professor Silliman, Jr., on Chemistry, in the Academical Department, are also accessible, on payment of the fees.

The Degree of Bachelor of Philosophy will be conferred by the President and Fellows, upon students in the Department of Philosophy and the Arts, after being connected with the Department for two years, and passing a satisfactory examination in three branches of study.

In the case of students connected with the School of Chemistry or Engineering, the two departments of science on which this examination for a degree is held, must both be pursued in the same school.

LIBRARY.

The College Library is designed for the use of the several Faculties of the College, Resident Graduates, Students connected with the Theological, Law, Medical and Philosophical Schools, and the members of the Senior and Junior Classes in the Academical Department.

The Theological Library, in the Trumbull Gallery Building, the Law Library, in the Law College, the Medical Library, in the Medical College, and the Scientific Library, in the Analytical Laboratory, are intended for the especial use of those who are connected with these several departments.

The whole number of books in the College Library is about - - -	30,000
" " in the Libraries of the professional schools, -	5,000
" " in the Libraries of the Literary Societies, -	27,000
Total, - - - - - - - - - - - -	62,000

TRUMBULL GALLERY.

This Building was erected in 1831, and is divided into two apartments.

The North Gallery contains the collection of original pictures by Col. Trumbull, which was arranged here in 1832, under the eye of the artist. At his death in 1843, the pictures became the property of the College, upon the condition that the proceeds of the Exhibition should be forever applied in aid of the education of indigent students in Yale College.

The eight Historical Pictures of scenes in the American Revolution,—the originals from which were painted by the artist those now in the rotunda of the National Capitol,—with portraits of many of the actors on both sides, form an unique feature of this gallery and give it a high value.

The South Gallery contains about sixty pictures, including portraits of many, whose names are intimately connected with the early history of the College and of the Colony.

CABINET.

The Mineralogical and Geological Cabinet now embraces over 30,000 specimens. The amount of funds hitherto expended upon it, mostly through the liberality of the friends of the College, is over 25,000 dollars. During the past season it has been refitted and rearranged at an expense of $1500, and considerable additions of specimens have also been made. It is especially rich in minerals, and is also liberally furnished with specimens illustrating the several Geological Formations. There is an extensive suite of Aerolites, including the largest mass of Meteoric Iron in any public collection in the world.

SCHOLARS OF THE HOUSE.

Class of 1853.	Thomas F. Davies, b. a.	Berkeley Scholarship.
